Atlantic Legal Foundation's Charter School Advocacy Program

For more than five years, Atlantic Legal has represented charter schools and their advocates when charters have been opposed by bureaucrats, teachers' unions, school districts and others who benefit from the conventional public education monopoly.

Charter School Advocacy Program: Mission Statement

Atlantic Legal believes that charter schools offer a necessary and viable alternative for parents and children locked into failing public schools. Recognizing that entrenched special-interest groups are opposed to the charter school concept and advised by a board of nationally prominent leaders in education, Atlantic Legal has established a program devoted to the protection and strengthening of charter schools:

Leveling the Playing Field

Atlantic Legal is publishing a series of state-focused legal guides, written by nationally known labor law attorneys, to educate charter school leaders about what they must know regarding unionization efforts.

Litigation

Atlantic Legal represents charter schools and charter school advocates in court, often as “friends of the court,” focusing on broad policy concerns that are not being developed adequately by plaintiffs and defendants. Atlantic Legal offers its representation at no charge.

Pro Bono Counsel

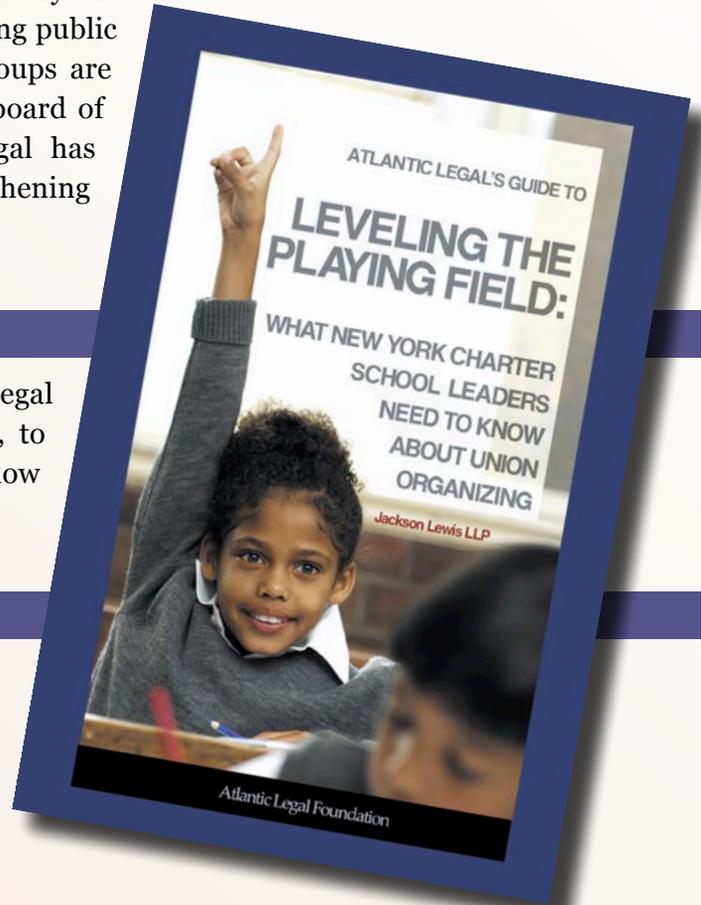

Atlantic Legal gives legal advice to charter school leaders and links charter schools with able private sector lawyers willing to provide representation at reduced rates or at no charge. Atlantic Legal collaborates with other public-interest attorneys who seek to expand school choice options on behalf of their clients.

Education

Atlantic Legal organizes conferences and workshops bringing national charter school leaders and charter advocates together to explore solutions to common problems. Using its network of charter school leaders, Atlantic Legal will also publish occasional papers discussing national issues impacting charters.

Website

Atlantic Legal’s dedicated website, www.defendcharterschools.org, will serve to gather the best research and current developments affecting charters.
